

Marketing Analytics

Allison Bickel

Create an account

Create an Analytics account to collect and organize data. Accounts can access multiple data sources, using one or more measurement IDs.

Account details

Account name (Required)

Accounts can contain more than one measurement ID.

Google Analytics is a business tool. Use it exclusively for purposes related to your trade, business, craft, or profession.

Account Data Sharing Settings

Google processes your Google Analytics data only as required to [maintain and protect](#) the Google Analytics service, as set out in the [Google Ads Data Processing Terms](#). The data sharing settings below allow you to customize whether the data that you collect in Google Analytics may also be shared with Google for additional purposes.

The data sharing options give you more control over sharing your Google Analytics data. [Learn more](#)

- Google products & services**
If you have enabled [Google signals](#), this setting will also apply to authenticated visitation data which is associated with Google user accounts. This setting is required for [Enhanced Demographics & Interests reporting](#). If you disable this option, data can still flow to other Google products explicitly linked to your property. Visit the product linking section in each property to view or change your settings. [Show Example](#)
- Modeling contributions & business insights**
Enable features like predictions, modeled data, and benchmarking that can provide you with richer business insights when you contribute aggregated measurement data. The data you share (including information about the property from which it is shared) is aggregated and de-identified before being used to generate business insights. [Show Example](#)
- Technical support**
Let Google technical support representatives access your Google Analytics data and account when necessary to provide service and find solutions to technical issues.
- Recommendations for your business**
Give Google access to your Google Analytics account data, including account usage and configuration data, product spending, and users associated with your Google Analytics account, so that Google can help you make the most of Google products, providing you with insights, offers, recommendations, and optimization tips across Google Analytics and other Google products for business.

Learn how Google Analytics [safeguards your data](#).

By using Google Analytics you agree to the [Google Analytics Terms of Service](#).

Set up a Google tag

Test installation

Choose how to set up a Google tag

Install manually **RECOMMENDED**

Below is the Google tag for this account. Copy and paste it in the code of every page of your website, immediately after the <head> element. Don't add more than one Google tag to each page.

```
<!-- Google tag (gtag.js) -->
<script async src="https://www.googletagmanager.com/gtag/js?id=G-LKX3P8QRLV"></script>
<script>
  window.dataLayer = window.dataLayer || [];
  function gtag(){dataLayer.push(arguments);}
  gtag('js', new Date());

  gtag('config', 'G-LKX3P8QRLV');
</script>
```

Use Google Tag Manager?

For additional features including multiple tag management and enterprise workflows, install and manage with Google Tag Manager. [Learn more about Google Tag Manager](#)

i If you have end users in the European Economic Area (EEA), set up consent mode so that you can continue to benefit from ads personalization and measurement. **Get started**

Web stream details

Just grab this ID

 Data collection isn't active for your website. If you installed tags more than 48 hours ago, make sure they are set up correctly. [View tag instructions](#)
